Pro-Stak WARD PRESCRIPTION Secure Metal Cabinet

Key Features Include:

- Repeat Prescription Request Slot
- Fixing Holes to Secure Cabinet to Wall
 - Key or New Type Digital Lock

Our wall mounted repeat prescription deposit box is ideal for surgeries and hospitals. It has been designed to offer a high quality and secure purpose made repeat prescription storage solution, keeping prescription and repeat prescription requests together and safe, until collection.

The metal cabinet can be attached to the wall using screws that fasten through the internal back wall of the cabinet and is front opening providing easy access to the contents.

It has four different lock types available from standard key entry to RFID card entry.

Available in Aqua, Light Grey or Cream

SP325C-326
(Cream)

Locks usually mounted horizontally not vertically as shown above

SP325A-STD (Aqua)

SP325G-STD (Light Grey)

SP325C-STD (Cream)
